Accepted papers will be published into International Conference Proceedings (978-1-4503-6175-0), which is indexed by **EI Compendex, Scopus, Inspec** etc.

Call for paper

*** Prospective authors are invited to submit papers on relevant algorithms and applications including, but not limited to:**

- 3D images and models
- 3D imaging
- Advanced descriptors and similarity metrics for images, audio and video
- Affect-based indexing, search, and retrieval of images & videos
- Applications in broadcast, web, cultural heritage, satellite, forensic, and (bio-) medical image and video collections
- Case studies and emerging technologies
- Classification and clustering techniques
- Color and texture
- Compression methods
- Computational geometry
- Computer animation
- Computer art and entertainment (including games)
- Content-based indexing, search, and retrieval of images & videos
- Curves and meshes
- Image compression, coding, and encryption
- Image generation, acquisition, and processing
- Image-based modeling and algorithms
- Immersive virtual reality
- Integration of virtual reality and multimedia
- Interactive digital media
- Knowledge-based recognition
- Learning and relevance feedback in image/video retrieval
- Machine learning technologies for vision
- Machine architectures/engines for graphics and VR
- Modeling of natural scenes and phenomena
- Simulation and virtual reality
- Software tools for computer graphics
- Software tools for virtual reality
- Sound rendering technologies
- Surface modeling
- Virtual and augmented reality
- Virtual environments
- Virtual humans and artificial life
- Virtual laboratories
